

DEMOCRATIC TICKET.

For Governor, F. WAT HANDED, of Mercer. For Lieutenant Governor, R. T. TYLER, of Fulton. For Treasurer, R. T. TYLER, of Fulton. For Comptroller, R. T. TYLER, of Fulton.

For Attorney General, L. C. NORMAN, of Boone. For Auditor of Land Office, G. W. BANGS, of Wolfe. For Secretary of State, W. J. HENDRICK, of Platteau.

For Post Office Inspector, HENRY S. HALE, of Owens. For County Auditor, J. B. NALL, of Louisville. For Railroad Commissioner, J. F. DEMPISEY, of Hickman.

For Representative from Ohio County, CAPT. SAM K. COX. For Governor, J. O. HARDER.

Dr. JOSEPH HUNTER ought to read his political anatomy with a little more care. Next time we know he will be writing to our friend John Bracken or Bro. Worley for funds to help "break the solid South" and establish Republican rule in Kentucky.

The Republicans of Kentucky declare that they are unalterably opposed to the free and unlimited coinage of silver. Perhaps it is only age that Dr. Hunter thinks the great silver State of Nebraska ought to help the Republicans buy the State office in Kentucky.

Born Mr. A. S. Worsley and Mr. John Bracken made conservative, temperance speeches at the court house Saturday. There was wanting in both speeches much of that vivacious, witty and caustic character which has too often characterized the talk of the colleagues of these gentlemen.

GENERAL SIMON B. BUCKNER is one of the grand old men who is always given a welcome to Ohio country. He will speak at the court house here at 2 o'clock on the 29th of this month, and we predict that a large number of our citizens will be on hand to hear him.

The Republican party if returned to power in this country will put back the things our farmers have to buy to the prices prevailing under the regime of the Democratic party. They have no power on earth to increase the price of what our people have to sell because we must sell in competition with the rest of the world.

The men on both sides and all of the political contest now on in Kentucky can learn a most valuable lesson from the sensible suggestion of the Elkhart Tribune in another column. So many concerns have been indulged in upon the theme of the subsidized press by men who are ordinarily too sensible to lead us to expect such folly from them, that we commend to their attention the study of the correct and sensible suggestions of the News.

The Democratic Convention of Maublenberg last week instructed for Hun. T. Smith, of this place, for the State Senate. This is a message which Dr. A. D. James may regard with some interest, for if he does consent to enter the lists for the place, the wily Doctor will find a woman worthy his steel. With T. Smith as their candidate the Democrats can redeem this district and distinguish in the upper House of the next Legislature.

The friends of Major W. R. Kinney, who spent his boyhood here and who is known to many of our older citizens, will be glad of another opportunity to meet him and to hear again his matchless eloquence with which he used to attack the "big game" in this part of Kentucky. Major Kinney has scarcely an equal as an orator in the State and the fact that he was born and reared in this county is an achievement so much to be proud of that it is a great crown here on the 29th inst.

Among the number of splendid gentlemen who have been in attendance at this term of court no one is more popular here than Hon. Jos. M. McLean, the efficient State Senator from our neighboring district. Dr. Deane and McLean. Mr. McLean was for two terms Prosecuting Attorney for this district and it never had a more conscientious or able official.

He is a noble hearted, generous, chivalrous gentleman, true to his friends and loyal and faithful to every trust his people could be to his keeping. He is a noble hearted, generous, chivalrous gentleman, true to his friends and loyal and faithful to every trust his people could be to his keeping.

was elected to the Senate without seeking the place and the people who knew him best believe that nothing within their gift is too good for happy-go-lucky, honest-hearted Hon. Jos. M. McLean. The State needs more like him.

The Democrats of Owensboro have nominated Hon. A. C. Thompson to succeed himself in the Legislature thus giving a most commendable endorsement of a splendid representative and a high up Kentucky gentleman. Mr. Thompson is one of the rich men whose riches are not spelled. He is as compassionate and approachable as any of the employees in his factory, and no man was ever blessed with a more faithful friend than he. Every man in Kentucky should be glad to see such a man elected to the Legislature. This is a course is highly preferable to the carrying up of so much local color in this hot weather, and we commend it to whom this matter may concern.

**A BOOLEY'S FAUX PAS.** The evils which exist in the Government of this country today are the outgrowth of thirty years of the worst misrule ever tolerated by any people. It has always been the creed of the Republican party to retain the offices at any cost. If the offices were to be had for the asking very well, but if not, then whatever the price, the money must be paid.

**OVER IN DAVERS.** The Democrats of Davison county have been so much interested in the Legislature from the country district, which is separated from the city of Owensboro and given a representative to itself. Three gentlemen, namely, W. R. Kinney, W. R. Kinney, and W. R. Kinney, are announced candidates for the place. Strong effort is being made to induce Mr. George V. Triplett, Esq., to enter the race. Referring to the matter, Mr. Triplett says in his paper:

"A number of influential Democrats from various parts of the county have written me, requesting me to be a candidate. As a result in the Legislature is not a matter of course, but I am not inclined to be filled at a personal and business matter. In the event, however, that I am elected, I shall be able to do much good for the people of this county. I am not inclined to be filled at a personal and business matter. In the event, however, that I am elected, I shall be able to do much good for the people of this county."

It must be said to the lasting credit of Kentuckians that they have thus far refused to allow this aggregation of dealers in election frauds. Referring to the matter, Mr. Triplett says in his paper:

"It is a pity that the people of this State are so much interested in the Legislature from the country district, which is separated from the city of Owensboro and given a representative to itself. Three gentlemen, namely, W. R. Kinney, W. R. Kinney, and W. R. Kinney, are announced candidates for the place. Strong effort is being made to induce Mr. George V. Triplett, Esq., to enter the race. Referring to the matter, Mr. Triplett says in his paper:

AMONG OUR EXCHANGES.

His advantage. The Louisville Courier-Journal and the Louisville Times are the only newspapers in this city which are not owned by the same man. The Louisville Courier-Journal is owned by the Louisville Times, and the Louisville Times is owned by the Louisville Courier-Journal.

When Congress a few years ago, agreed to refund to the State the sum of \$100,000, the Louisville Courier-Journal and the Louisville Times were the only newspapers in this city which were not owned by the same man. The Louisville Courier-Journal is owned by the Louisville Times, and the Louisville Times is owned by the Louisville Courier-Journal.

There are many ways that our roads can be materially improved. One way is to build more roads. Another way is to build more bridges. A third way is to build more ferries. A fourth way is to build more railroads. A fifth way is to build more canals. A sixth way is to build more highways. A seventh way is to build more bridges. A eighth way is to build more ferries. A ninth way is to build more railroads. A tenth way is to build more canals. A eleventh way is to build more highways. A twelfth way is to build more bridges. A thirteenth way is to build more ferries. A fourteenth way is to build more railroads. A fifteenth way is to build more canals. A sixteenth way is to build more highways. A seventeenth way is to build more bridges. A eighteenth way is to build more ferries. A nineteenth way is to build more railroads. A twentieth way is to build more canals. A twenty-first way is to build more highways. A twenty-second way is to build more bridges. A twenty-third way is to build more ferries. A twenty-fourth way is to build more railroads. A twenty-fifth way is to build more canals. A twenty-sixth way is to build more highways. A twenty-seventh way is to build more bridges. A twenty-eighth way is to build more ferries. A twenty-ninth way is to build more railroads. A thirtieth way is to build more canals. A thirty-first way is to build more highways. A thirty-second way is to build more bridges. A thirty-third way is to build more ferries. A thirty-fourth way is to build more railroads. A thirty-fifth way is to build more canals. A thirty-sixth way is to build more highways. A thirty-seventh way is to build more bridges. A thirty-eighth way is to build more ferries. A thirty-ninth way is to build more railroads. A fortieth way is to build more canals. A forty-first way is to build more highways. A forty-second way is to build more bridges. A forty-third way is to build more ferries. A forty-fourth way is to build more railroads. A forty-fifth way is to build more canals. A forty-sixth way is to build more highways. A forty-seventh way is to build more bridges. A forty-eighth way is to build more ferries. A forty-ninth way is to build more railroads. A fiftieth way is to build more canals. A fifty-first way is to build more highways. A fifty-second way is to build more bridges. A fifty-third way is to build more ferries. A fifty-fourth way is to build more railroads. A fifty-fifth way is to build more canals. A fifty-sixth way is to build more highways. A fifty-seventh way is to build more bridges. A fifty-eighth way is to build more ferries. A fifty-ninth way is to build more railroads. A sixtieth way is to build more canals. A sixty-first way is to build more highways. A sixty-second way is to build more bridges. A sixty-third way is to build more ferries. A sixty-fourth way is to build more railroads. A sixty-fifth way is to build more canals. A sixty-sixth way is to build more highways. A sixty-seventh way is to build more bridges. A sixty-eighth way is to build more ferries. A sixty-ninth way is to build more railroads. A seventieth way is to build more canals. A seventy-first way is to build more highways. A seventy-second way is to build more bridges. A seventy-third way is to build more ferries. A seventy-fourth way is to build more railroads. A seventy-fifth way is to build more canals. A seventy-sixth way is to build more highways. A seventy-seventh way is to build more bridges. A seventy-eighth way is to build more ferries. A seventy-ninth way is to build more railroads. A eightieth way is to build more canals. A eighty-first way is to build more highways. A eighty-second way is to build more bridges. A eighty-third way is to build more ferries. A eighty-fourth way is to build more railroads. A eighty-fifth way is to build more canals. A eighty-sixth way is to build more highways. A eighty-seventh way is to build more bridges. A eighty-eighth way is to build more ferries. A eighty-ninth way is to build more railroads. A ninetieth way is to build more canals. A ninety-first way is to build more highways. A ninety-second way is to build more bridges. A ninety-third way is to build more ferries. A ninety-fourth way is to build more railroads. A ninety-fifth way is to build more canals. A ninety-sixth way is to build more highways. A ninety-seventh way is to build more bridges. A ninety-eighth way is to build more ferries. A ninety-ninth way is to build more railroads. A hundredth way is to build more canals. A hundred-first way is to build more highways. A hundred-second way is to build more bridges. A hundred-third way is to build more ferries. A hundred-fourth way is to build more railroads. A hundred-fifth way is to build more canals. A hundred-sixth way is to build more highways. A hundred-seventh way is to build more bridges. A hundred-eighth way is to build more ferries. A hundred-ninth way is to build more railroads. A hundred-tenth way is to build more canals. A hundred-eleventh way is to build more highways. A hundred-twelfth way is to build more bridges. A hundred-thirteenth way is to build more ferries. A hundred-fourteenth way is to build more railroads. A hundred-fifteenth way is to build more canals. A hundred-sixteenth way is to build more highways. A hundred-seventeenth way is to build more bridges. A hundred-eighteenth way is to build more ferries. A hundred-nineteenth way is to build more railroads. A hundred-twentieth way is to build more canals. A hundred-twenty-first way is to build more highways. A hundred-twenty-second way is to build more bridges. A hundred-twenty-third way is to build more ferries. A hundred-twenty-fourth way is to build more railroads. A hundred-twenty-fifth way is to build more canals. A hundred-twenty-sixth way is to build more highways. A hundred-twenty-seventh way is to build more bridges. A hundred-twenty-eighth way is to build more ferries. A hundred-twenty-ninth way is to build more railroads. A hundred-thirtieth way is to build more canals. A hundred-thirty-first way is to build more highways. A hundred-thirty-second way is to build more bridges. A hundred-thirty-third way is to build more ferries. A hundred-thirty-fourth way is to build more railroads. A hundred-thirty-fifth way is to build more canals. A hundred-thirty-sixth way is to build more highways. A hundred-thirty-seventh way is to build more bridges. A hundred-thirty-eighth way is to build more ferries. A hundred-thirty-ninth way is to build more railroads. A hundred-fortieth way is to build more canals. A hundred-forty-first way is to build more highways. A hundred-forty-second way is to build more bridges. A hundred-forty-third way is to build more ferries. A hundred-forty-fourth way is to build more railroads. A hundred-forty-fifth way is to build more canals. A hundred-forty-sixth way is to build more highways. A hundred-forty-seventh way is to build more bridges. A hundred-forty-eighth way is to build more ferries. A hundred-forty-ninth way is to build more railroads. A hundred-fiftieth way is to build more canals. A hundred-fifty-first way is to build more highways. A hundred-fifty-second way is to build more bridges. A hundred-fifty-third way is to build more ferries. A hundred-fifty-fourth way is to build more railroads. A hundred-fifty-fifth way is to build more canals. A hundred-fifty-sixth way is to build more highways. A hundred-fifty-seventh way is to build more bridges. A hundred-fifty-eighth way is to build more ferries. A hundred-fifty-ninth way is to build more railroads. A hundred-sixtieth way is to build more canals. A hundred-sixty-first way is to build more highways. A hundred-sixty-second way is to build more bridges. A hundred-sixty-third way is to build more ferries. A hundred-sixty-fourth way is to build more railroads. A hundred-sixty-fifth way is to build more canals. A hundred-sixty-sixth way is to build more highways. A hundred-sixty-seventh way is to build more bridges. A hundred-sixty-eighth way is to build more ferries. A hundred-sixty-ninth way is to build more railroads. A hundred-seventieth way is to build more canals. A hundred-seventy-first way is to build more highways. A hundred-seventy-second way is to build more bridges. A hundred-seventy-third way is to build more ferries. A hundred-seventy-fourth way is to build more railroads. A hundred-seventy-fifth way is to build more canals. A hundred-seventy-sixth way is to build more highways. A hundred-seventy-seventh way is to build more bridges. A hundred-seventy-eighth way is to build more ferries. A hundred-seventy-ninth way is to build more railroads. A hundred-eightieth way is to build more canals. A hundred-eighty-first way is to build more highways. A hundred-eighty-second way is to build more bridges. A hundred-eighty-third way is to build more ferries. A hundred-eighty-fourth way is to build more railroads. A hundred-eighty-fifth way is to build more canals. A hundred-eighty-sixth way is to build more highways. A hundred-eighty-seventh way is to build more bridges. A hundred-eighty-eighth way is to build more ferries. A hundred-eighty-ninth way is to build more railroads. A hundred-ninetyth way is to build more canals. A hundred-ninety-first way is to build more highways. A hundred-ninety-second way is to build more bridges. A hundred-ninety-third way is to build more ferries. A hundred-ninety-fourth way is to build more railroads. A hundred-ninety-fifth way is to build more canals. A hundred-ninety-sixth way is to build more highways. A hundred-ninety-seventh way is to build more bridges. A hundred-ninety-eighth way is to build more ferries. A hundred-ninety-ninth way is to build more railroads. A two hundredth way is to build more canals. A two hundred-first way is to build more highways. A two hundred-second way is to build more bridges. A two hundred-third way is to build more ferries. A two hundred-fourth way is to build more railroads. A two hundred-fifth way is to build more canals. A two hundred-sixth way is to build more highways. A two hundred-seventh way is to build more bridges. A two hundred-eighth way is to build more ferries. A two hundred-ninth way is to build more railroads. A three hundred-eighty-fourth way is to build more railroads. A three hundred-eighty-fifth way is to build more canals. A three hundred-eighty-sixth way is to build more highways. A three hundred-eighty-seventh way is to build more bridges. A three hundred-eighty-eighth way is to build more ferries. A three hundred-eighty-ninth way is to build more railroads. A three hundred-ninetyth way is to build more canals. A three hundred-ninety-first way is to build more highways. A three hundred-ninety-second way is to build more bridges. A three hundred-ninety-third way is to build more ferries. A three hundred-ninety-fourth way is to build more railroads. A three hundred-ninety-fifth way is to build more canals. A three hundred-ninety-sixth way is to build more highways. A three hundred-ninety-seventh way is to build more bridges. A three hundred-ninety-eighth way is to build more ferries. A three hundred-ninety-ninth way is to build more railroads. A four hundredth way is to build more canals. A four hundred-first way is to build more highways. A four hundred-second way is to build more bridges. A four hundred-third way is to build more ferries. A four hundred-fourth way is to build more railroads. A four hundred-fifth way is to build more canals. A four hundred-sixth way is to build more highways. A four hundred-seventh way is to build more bridges. A four hundred-eighth way is to build more ferries. A four hundred-ninth way is to build more railroads. A four hundred-tenth way is to build more canals. A four hundred-eleventh way is to build more highways. A four hundred-twelfth way is to build more bridges. A four hundred-thirteenth way is to build more ferries. A four hundred-fourteenth way is to build more railroads. A four hundred-fifteenth way is to build more canals. A four hundred-sixteenth way is to build more highways. A four hundred-seventeenth way is to build more bridges. A four hundred-eighteenth way is to build more ferries. A four hundred-nineteenth way is to build more railroads. A four hundred-twentieth way is to build more canals. A four hundred-twenty-first way is to build more highways. A four hundred-twenty-second way is to build more bridges. A four hundred-twenty-third way is to build more ferries. A four hundred-twenty-fourth way is to build more railroads. A four hundred-twenty-fifth way is to build more canals. A four hundred-twenty-sixth way is to build more highways. A four hundred-twenty-seventh way is to build more bridges. A four hundred-twenty-eighth way is to build more ferries. A four hundred-twenty-ninth way is to build more railroads. A four hundred-thirtieth way is to build more canals. A four hundred-thirty-first way is to build more highways. A four hundred-thirty-second way is to build more bridges. A four hundred-thirty-third way is to build more ferries. A four hundred-thirty-fourth way is to build more railroads. A four hundred-thirty-fifth way is to build more canals. A four hundred-thirty-sixth way is to build more highways. A four hundred-thirty-seventh way is to build more bridges. A four hundred-thirty-eighth way is to build more ferries. A four hundred-thirty-ninth way is to build more railroads. A four hundred-fortieth way is to build more canals. A four hundred-forty-first way is to build more highways. A four hundred-forty-second way is to build more bridges. A four hundred-forty-third way is to build more ferries. A four hundred-forty-fourth way is to build more railroads. A four hundred-forty-fifth way is to build more canals. A four hundred-forty-sixth way is to build more highways. A four hundred-forty-seventh way is to build more bridges. A four hundred-forty-eighth way is to build more ferries. A four hundred-forty-ninth way is to build more railroads. A four hundred-fiftieth way is to build more canals. A four hundred-fifty-first way is to build more highways. A four hundred-fifty-second way is to build more bridges. A four hundred-fifty-third way is to build more ferries. A four hundred-fifty-fourth way is to build more railroads. A four hundred-fifty-fifth way is to build more canals. A four hundred-fifty-sixth way is to build more highways. A four hundred-fifty-seventh way is to build more bridges. A four hundred-fifty-eighth way is to build more ferries. A four hundred-fifty-ninth way is to build more railroads. A four hundred-sixtieth way is to build more canals. A four hundred-sixty-first way is to build more highways. A four hundred-sixty-second way is to build more bridges. A four hundred-sixty-third way is to build more ferries. A four hundred-sixty-fourth way is to build more railroads. A four hundred-sixty-fifth way is to build more canals. A four hundred-sixty-sixth way is to build more highways. A four hundred-sixty-seventh way is to build more bridges. A four hundred-sixty-eighth way is to build more ferries. A four hundred-sixty-ninth way is to build more railroads. A four hundred-seventieth way is to build more canals. A four hundred-seventy-first way is to build more highways. A four hundred-seventy-second way is to build more bridges. A four hundred-seventy-third way is to build more ferries. A four hundred-seventy-fourth way is to build more railroads. A four hundred-seventy-fifth way is to build more canals. A four hundred-seventy-sixth way is to build more highways. A four hundred-seventy-seventh way is to build more bridges. A four hundred-seventy-eighth way is to build more ferries. A four hundred-seventy-ninth way is to build more railroads. A four hundred-eightieth way is to build more canals. A four hundred-eighty-first way is to build more highways. A four hundred-eighty-second way is to build more bridges. A four hundred-eighty-third way is to build more ferries. A four hundred-eighty-fourth way is to build more railroads. A four hundred-eighty-fifth way is to build more canals. A four hundred-eighty-sixth way is to build more highways. A four hundred-eighty-seventh way is to build more bridges. A four hundred-eighty-eighth way is to build more ferries. A four hundred-eighty-ninth way is to build more railroads. A four hundred-ninetyth way is to build more canals. A four hundred-ninety-first way is to build more highways. A four hundred-ninety-second way is to build more bridges. A four hundred-ninety-third way is to build more ferries. A four hundred-ninety-fourth way is to build more railroads. A four hundred-ninety-fifth way is to build more canals. A four hundred-ninety-sixth way is to build more highways. A four hundred-ninety-seventh way is to build more bridges. A four hundred-ninety-eighth way is to build more ferries. A four hundred-ninety-ninth way is to build more railroads. A five hundredth way is to build more canals. A five hundred-first way is to build more highways. A five hundred-second way is to build more bridges. A five hundred-third way is to build more ferries. A five hundred-fourth way is to build more railroads. A five hundred-fifth way is to build more canals. A five hundred-sixth way is to build more highways. A five hundred-seventh way is to build more bridges. A five hundred-eighth way is to build more ferries. A five hundred-ninth way is to build more railroads. A five hundred-tenth way is to build more canals. A five hundred-eleventh way is to build more highways. A five hundred-twelfth way is to build more bridges. A five hundred-thirteenth way is to build more ferries. A five hundred-fourteenth way is to build more railroads. A five hundred-fifteenth way is to build more canals. A five hundred-sixteenth way is to build more highways. A five hundred-seventeenth way is to build more bridges. A five hundred-eighteenth way is to build more ferries. A five hundred-nineteenth way is to build more railroads. A five hundred-twentieth way is to build more canals. A five hundred-twenty-first way is to build more highways. A five hundred-twenty-second way is to build more bridges. A five hundred-twenty-third way is to build more ferries. A five hundred-twenty-fourth way is to build more railroads. A five hundred-twenty-fifth way is to build more canals. A five hundred-twenty-sixth way is to build more highways. A five hundred-twenty-seventh way is to build more bridges. A five hundred-twenty-eighth way is to build more ferries. A five hundred-twenty-ninth way is to build more railroads. A five hundred-thirtieth way is to build more canals. A five hundred-thirty-first way is to build more highways. A five hundred-thirty-second way is to build more bridges. A five hundred-thirty-third way is to build more ferries. A five hundred-thirty-fourth way is to build more railroads. A five hundred-thirty-fifth way is to build more canals. A five hundred-thirty-sixth way is to build more highways. A five hundred-thirty-seventh way is to build more bridges. A five hundred-thirty-eighth way is to build more ferries. A five hundred-thirty-ninth way is to build more railroads. A five hundred-fortieth way is to build more canals. A five hundred-forty-first way is to build more highways. A five hundred-forty-second way is to build more bridges. A five hundred-forty-third way is to build more ferries. A five hundred-forty-fourth way is to build more railroads. A five hundred-forty-fifth way is to build more canals. A five hundred-forty-sixth way is to build more highways. A five hundred-forty-seventh way is to build more bridges. A five hundred-forty-eighth way is to build more ferries. A five hundred-forty-ninth way is to build more railroads. A five hundred-fiftieth way is to build more canals. A five hundred-fifty-first way is to build more highways. A five hundred-fifty-second way is to build more bridges. A five hundred-fifty-third way is to build more ferries. A five hundred-fifty-fourth way is to build more railroads. A five hundred-fifty-fifth way is to build more canals. A five hundred-fifty-sixth way is to build more highways. A five hundred-fifty-seventh way is to build more bridges. A five hundred-fifty-eighth way is to build more ferries. A five hundred-fifty-ninth way is to build more railroads. A five hundred-sixtieth way is to build more canals. A five hundred-sixty-first way is to build more highways. A five hundred-sixty-second way is to build more bridges. A five hundred-sixty-third way is to build more ferries. A five hundred-sixty-fourth way is to build more railroads. A five hundred-sixty-fifth way is to build more canals. A five hundred-sixty-sixth way is to build more highways.
